

DESCRIPTION

Non-woven, polyester reinforcement mat for WINKLER range's liquid waterproofing membranes. The product has the following features:

- Non-allergenic
- Rot-proof
- Resistant to atmospheric agents
- Easy-fitting to every kind of surface

USES

WINTECHNO MAT is an ideal reinforcement for liquid waterproofs. Thanks to its flexibility it assures a great adaptation to the treated surfaces while for its extreme permeability it goes together well with the waterproofing liquid. Its versatility and the small thickness make WINTECHNO MAT an effective instrument even in case of existing floors, where following height differences, particularly near doorsteps, is extremely binding.

WINTECHNO MAT is a valid system to be used on large surfaces (>50sqm), tiled floors, gutters and on substrates subject to movements, to allow the liquid waterproofer to effectively absorb the tensions created by the substrate.

APPLICATION

For the application, always refer to the technical data sheets of the liquid membrane chosen for waterproofing.

SAFETY INSTRUCTIONS

PRECAUTIONS

For information about safety, user must refer to the most recent Safety Data Sheet, edited in accordance with the regulations in force, which contains physical, toxic and other data about the product in use.

ECOLOGY

Do not through out the product and/or empty containers in the environment. Consult the most recent Safety Data Sheet for further information about disposals.

TECHNICAL SHEET

FEATURES		STANDARDS	RESULTS
Weight		ISO 9073 - 1	70 g/m ²
Thickness		ISO 9073 - 1	0.65 mm
Breaking load	L T	EN 12311 - 1	450 N/5 cm 170 N/5 cm
Breaking elongation	L T	EN 12311 - 1	16 % 30 %
